Insider Tips

When sourcing new upholstery pieces for clients, our most asked request is how to keep the fabric clean and looking fresh over time, especially if there are kids or pets in the home. Our best vendors carry an array of pieces with durable fibers and heavy-duty construction for this, like Sunbrella, Crypton, or Revolution. They have selections that are resistant to water-based spills, such as juice or coffee, or repel oil-based stains, like butter or pizza.

Q&A: How to style shelves?

A: We typically use one-third or two-thirds of each shelf, to find the optimal spacing for our groupings of decor. We typically do groupings of 3, odd numbers are best, and use different heights & sizes of objects. To create a balanced aesthetic, work with similar colors and textures throughout each shelf. We love using hardback books with the paper covers removed for more neutral tones. Or, snag a piece of pottery or a trinket bowl with an interesting shape or texture during your travels for a unique, storied accessory.
